

The 13th edition of the CECRI's newsletter stands in a very international light with one publication in a Colombian review, two contributions on RFI and one in the Japanese newspaper The Asahi Shimbun. Onto that geographical diversity can be added the diversity of the public that could be reached. An interview on Entrée Libres allows to reach out to the teaching personnel while the presence in front of the personnel of the SONACA allowed to sensitize several hundreds of engineers from the aeronautic sector regarding contemporary geopolitical issues.
