

The new academic year is now well on its way. This issue of our Newsletter highlights the CECRI's dynamism. To be brought out is our FNRS junior researcher Stipe Odak who received a grant of the Auschwitz Foundation which acknowledges the high quality of Stipe's researches. Beyond their research activities intended for the academic community, CECRI's members also seek to reach a wider audience as does Raoul Delcorde with his new book "Les mots de la diplomatie" (Words of Diplomacy) or Tanguy de Wilde's intervention in "Les Niouzz", a Belgian TV show intended for children.

Enjoy reading !
